RESTRICTION

Response to election and traversal

1. Applicant's election with traverse of Group I, claims 1-4, 8 and 20 in Paper No. 10 filed April 27, 1998 is acknowledged. The traversal is on the ground(s) that "a complete search of the subject matter of Group I would include the subject matter of group III and thus no undue burden would be placed on the examiner if the claims of at least these two Groups were to be considered in the same application". This is not found persuasive because the statement is conclusory in that no evidence or explanation has been given to support it. Therefore, the requirement for restriction to elected Group I is still deemed proper and is made FINAL. Nonelected claims 4-7 and 9-19 have been withdrawn from prosecution.

Elected claims

2. Applicant's election of Group I effectively elects in claim 20 the nucleic acid sequence of claim 1 and the host cell according to claim 8. Therefore, claim 20 c), drawn to the amino acid sequence of claim 5, has been withdrawn from allowance.

Restriction to one nucleotide sequence in elected Group I

3. Claims 1-4, 8 and 20 of elected Group I comprise multiple distinct inventions defined by multiple nucleotide sequences, *viz.*, SEQ ID NOS:1-4, 5, 68 and 69. Applicant is required to elect **one** invention, *i.e.*, **one** sequence to which prosecution of the elected claims will be restricted.

4. Nucleotide sequences encoding different proteins are structurally and functionally distinct chemical compounds unrelated to one another as are the proteins they encode. Absent evidence to the contrary, these sequences are thus deemed to constitute independent and distinct inventions within the meaning of 35 U.S.C. 121. Pursuant to this statute, the rules provide that "[i]f two or more independent and distinct inventions are claimed in a single application, the examiner in his action shall require the applicant . . . to elect that invention to which his claims shall be restricted." 37 CFR 1.142(a). See also 37 CFR 1.141(a).

Art Unit: 1634

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. A telephone call was made to Mary Wilson on April 3, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Contact information

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephanie Zitomer whose telephone number is (703) 308-3985. The examiner can normally be reached on Monday through Friday from 9:00 am to 4:30 pm.
